

## Menu of Choice Options

1. Share the pages by price when you are video chatting, or by posting to your google classroom or any platform you're using! Have students message you, respond, post what they would like for the month of May!
2. Email out the Pages by Price to families and have parents engage with their children in the choice process! Families can respond via email or text to you or via a simple google form like this example [here](#).
3. Calling families if this is your preferred method of communication or if they've not responded to other options.
